

PERSONAL ASSISTANCE

Our Personal Assistant (PA) Program is designed to support individuals with developmental disabilities in living independently and achieving their personal goals. Participants receive assistance with daily life skills and access to the tools they need to progress at their own pace, empowering independence and personal growth. The program also emphasizes fun and social engagement, offering individual or group outings to creative and exciting locations where participants can meet new friends, explore the community, and enjoy meaningful interactions.

Contact us today to learn more and discover how our Personal Assistant Program can be the perfect fit for your loved one.
