

CAREER PLANNING

Our Career planning (CP) program is a personalized service that helps individuals explore job interests and discover potential career paths. The goal is to create a clear, practical plan for finding meaningful work—either in a competitive job setting or through self-employment. This process includes a variety of services all tailored to the individual. At the end of the process, the individual will have a documented career goal and a plan that can guide future job support and training.

Supports include, but are not limited to:

- ✓ Get To Know You: home visits, routines, likes/dislikes, boundaries, preferences, interest inventories
- ✓ Assessments: strengths/weaknesses, community & facility-based assessments
- ✓ Community: outings, discovery activities, informational interviews, shadowing, volunteering
- ✓ Outcomes: experience summaries, job/task analysis, written career profile

Contact us today to learn more and see if our Career Planning Program is the right fit for your loved one.
