

COMMUNITY NETWORKING

Our Community Networking (CN) program helps individuals build connections and take part in meaningful community activities based on their interests, strengths, and goals. This program supports people in exploring local resources, developing new skills, and forming lasting relationships that encourage independence and belonging. CN focuses on creating positive experiences, valued community roles, and opportunities to participate in groups, activities, and organizations. Over time, the goal is to reduce paid supports as natural supports in the community grow.

Contact us today to learn more and see if our Community Networking Program is the right fit for your loved one.

- ✓ Meaningful Connections
- ✓ Local Resources
- ✓ Community Roles & Opportunities
